

New Product Introduction (NPI) Associate

Reach your career goals with Eirgen Pharma, your future could be here

Would you like to be part of a company that has the courage, innovation, and capability to improve and enhance patient lives across the globe?

Eirgen was founded in 2005 and since then we have continually grown and now employ over 180 employees at our site in Waterford. Our strengths lie in our capability to rapidly introduce new products and add additional volume to existing products - ensuring supply for new product launches and expanding market opportunities.

What makes us different is that while we continue to grow our business we have still maintained that small company feel to our culture which enables us to ensure that our employees are always front and centre in everything we do. By creating a progressive and dynamic working environment, where hard work and enjoyment aren't mutually exclusive, we have created a high performing, people-centric culture which allows us to work in an environment where the focus is always on ensuring that the patient comes first.

About the Job

In this role you will support Eirgen's CMO, CDMO & Internal Development programs in collaboration with Commercial and R&D Value Streams.

Primary responsibilities of this role include the following:

- Coordinate the planning and implementation of projects within Eirgen's NPI framework
- Support delivery of NPI projects from product selection through to Commercial launch
- Support & develop Eirgen's NPI governance forum
- Work with Commercial and R&D Value Streams to implement a consistent approach to New Product Introduction across Eirgen
- Plan, schedule and track project deliverables using appropriate project management tools.
- Challenge teams to ensure NPI deliverables are completed on/ahead of schedule
- Ensure that all work is carried out in compliance with the required standards to conform to company, cGxP, health and safety, environmental and regulatory requirements
- Liaise with external customers on all key project communications
- Liaise with internal & external customers on project progression, issue resolution and milestone achievements
- Contribute to Eirgen innovation pipeline & support new product selection

About you

You are educated to a minimum of degree level in pharma science or technical discipline, while a Project Management qualification is advantageous. You have 2plus years' experience in R&D/MSAT/Engineering and this experience includes project management.

Ideally you will have experience of working in or leading cross functional project teams with track record of delivery. You are also familiar with regulatory, validation, compliance and documentation requirements for product development, commercial production and site transfers.

As a positive collaborative colleague you will draw from your many skills such as strategic thinking, planning, multi-tasking, project and time management. You have the ability to form strong relationships and negotiate and influence cross functionally, you enjoy collaborating, gaining knowledge, continuous improvement and solving problems.

Working at Eirgen – What to expect

At Eirgen, we have developed a diverse, people-centric, high performance culture where people are enabled to achieve their potential.

If you are working at Eirgen, then we think you've got something special. Our employees are high-performing and work as part of a cohesive team, they are dedicated people who are driven to succeed and are rewarded with competitive salaries and an attractive range of benefits including opportunities for career progression and continuing education.

Apply for the above role by sending your CV to opportunities@Eirgen.com including the job title in the subject.
