

Process Operator (Oral Solid Dose)

Reach your career goals with Eirgen Pharma, your future could be here

Would you like to be part of a company that has the courage, innovation, and capability to improve and enhance patient lives across the globe?

Eirgen was founded in 2005 and since then we have continually grown and now employ over 180 employees at our site in Waterford. Our strengths lie in our capability to rapidly introduce new products and add additional volume to existing products - ensuring supply for new product launches and expanding market opportunities.

What makes us different is that while we continue to grow our business we have still maintained that small company feel to our culture which enables us to ensure that our employees are always front and centre in everything we do. By creating a progressive and dynamic working environment, where hard work and enjoyment aren't mutually exclusive, we have created a high performing, people-centric culture which allows us to work in an environment where the focus is always on ensuring that the patient comes first.

About the Job

In this role you will have responsibility for operational activities, to ensure maximum production quality and quantity, while supporting the policies, goals and objectives of Eirgen.

You will:

- GMP Manufacture / pack of commercial and development batches of oral solid dose medicine in tablet and capsule format (including liquid fill, powder fill, soft gel technologies), ensuring all work carried out is in compliance with the required standards conforming to company, cGxP, SOPs, regulatory and safety & environmental directives and guidelines.
- Work with the production team to maintain campaign schedule adherence through readiness preparation, on-time start and slippage recovery during campaign.
- Check own work and that of others for accuracy ensuring best possible right first time compliance.
- Constantly review and monitor production and quality of production batches, anticipating and solving problems in a timely manner, and identifying opportunities for improvement.
- Identify and make recommendations for improvements as part of a team within or outside the department in order to ensure continuous improvement.
- Participate in projects that improve efficiency and / or reduce operating costs.
- Proactively contribute in production incident investigations.
- Actively participate in Tiered accountability meetings.
- Communicate directly with the maintenance personnel to coordinate maintenance and repair work in manufacturing areas.
- Perform preventative maintenance activities as required.
- Assist with diagnosing and trouble-shooting maintenance related issues and support maintenance technicians in performing maintenance and repairs.
- Perform and review TOC Analyser testing on Purified Water as required.
- Ensure full compliance in relation to own training metrics.

- Carry out duties in a safe manner while ensuring own safety as well as that of co-workers and company property.
- Proactively report and where possible take immediate corrective action on any observed unsafe behaviour or condition.
- Perform additional team tasks as agreed to support effective running of the Business.

About you

You are qualified to a minimum of leaving cert level and ideally have experience working in a similar role in a GMP regulated environment.

Ideally you have knowledge of Microsoft products including, Excel, Word & Power Point. You possess excellent written & verbal communication skills, have strong attention to detail and work effectively on your own as well as with others. You will draw from many skills including adaptability, planning, multi-tasking and time management. You have the ability to form positive relationships and enjoy collaborating, gaining knowledge, continuous improvement and solving problems.

Working at Eirgen – What to expect

At Eirgen, we have developed a diverse, people-centric, high performance culture where people are enabled to achieve their potential.

If you are working at Eirgen, then we think you've got something special. Our employees are high-performing and work as part of a cohesive team, they are dedicated people who are driven to succeed and are rewarded with competitive salaries and an attractive range of benefits including opportunities for career progression and continuing education.

Apply for the above role by sending your CV to opportunities@eirgen.com including the job title in the subject.
